December 7, 2005

Pleasanton Township, Manistee County Bear Lake, MI 49614

The attitude and cooperative attitude was greatly appreciated. This attitude is reflected in the constant desire to do a better and more complete job and in providing enhanced services to the community.

The primary purpose of this letter is to prepare, for management, information which delineates those items encountered during the course of the audit which were either not related to the financial, internal control and compliance reports or were not material enough to comment on relative to them. However, these items might be significant when viewed from a management perspective or in the longer term. This letter is intended only for the use of management and any other parties not informed of these matters might misconstrue their meanings.

Our Responsibility under Generally Accepted Auditing Standards

Our responsibility, as described by professional standards, is to plan and perform our audit to obtain reasonable, but not absolute, assurance that the financial statements are free of material misstatement and are fairly presented in accordance with generally accepted accounting principles. Because of the concept of reasonable assurance and because we did not perform a detailed examination of all transactions, there is a risk that material errors, irregularities, or illegal acts, including fraud and defalcations, may exist and not be detected by us.

As part of our audit, we considered the internal control structure of Pleasanton Township. Management has the responsibility for adopting sound accounting policies, for maintaining an adequate and effective system of accounts, for safeguarding assets and for maintaining the structure of the internal control system to help assure the proper recording of transactions. Our consideration of the system of internal control was solely for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control structure.

Significant Accounting Policies

Management has the responsibility for selection of appropriate accounting policies. In accordance with the terms of our engagement, we will advise management of the appropriateness of the accounting policies and their application. The significant accounting policies used by the Pleasanton Township are listed in Note 1. No new accounting policies were adopted and the application of existing policies was not changed during the fiscal year. We noted no transactions entered into Pleasanton Township during the year that were both significant and unusual, and of which, under professional standards, we are required to inform you, of transactions for which there is a lack of authoritative guidance or consensus.

Management Judgements and Accounting Estimates

Some accounting estimates are utilized in financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Our conclusions regarding the reasonableness of the estimates are based on reviewing and testing the historical data provided by management and using this data to compute the liability.

Significant Audit Adjustments

For purposes of this letter, professional standards define a significant audit adjustment as a proposed correction of the general purpose financial statements that, in our judgment, may not have been detected except through our auditing procedures. These adjustments may include those proposed by us but not recorded by Pleasanton Township that could potentially cause future financial statements to be materially misstated, even though we have concluded such adjustments are not material to the current financial statements. Our audit adjustments, individually and in the aggregate, have a significant effect on the financial reporting process.

COMMENT: The Clerk and the Treasurer are doing an excellent job. It certainly was a pleasure to arrive and have the financial statements and all the requisite information in order ready and available.

It is important to remember that this report is for information only and provided to management with the sole intent that it can be evaluated with the potential to improve management practices and insure proper compliance with the bond covenants.

Sincerely,

Wilson, Ward CPA Firm

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Pleasanton Township Board Bear Lake, Michigan

We have audited the financial statements of the governmental activities, the business-type activities and the aggregate remaining fund information of Cleon Township, Manistee County, Michigan, as of and for the year ended March 31, 2005, which collectively comprise the Pleasanton Township's basic financial statements and have issued our report thereon dated December 7, 2005. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Pleasanton Township's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide an opinion on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

Compliance and Other Matters

Wilson Ward CAFirm

As part of obtaining reasonable assurance about whether Pleasanton Township's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

This report is intended solely for the information and use of the audit committee, management, township board, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITOR'S REPORT

To the Pleasanton Township Board Bear Lake, Michigan

We have audited the accompanying financial statements of the governmental activities and the aggregate remaining fund information of Pleasanton Township, Manistee County, Michigan, as of and for the year ended March 31, 2005, which collectively comprise the Township's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Pleasanton Township's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the aggregate remaining fund information of the Pleasanton Township as of March 31, 2005, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America. In accordance with Government Auditing Standards, we have also issued our report dated December 7, 2005, on our consideration of the Pleasanton Township's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in conjunction with this report in considering the results of our audit.

The management's discussion and analysis and budgetary comparison information are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Pleasanton Township's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Interlochen, MI December 7, 2005

PLEASANTON TOWNSHIP MANISTEE COUNTY

Management's Discussion and Analysis

Using this Annual Report

This annual report consists of a series of financial statements. The Statement of Net Assets and the Statement of Activities provide information about the activities of the Township as a whole and present a longer-term view of the Township's finances. Fund financial statements tell how these services were financed in the short-term, as well as what remains for future spending. Fund financial statements also report the Township's operations in more detail than the government-wide financial statements.

The Township as a Whole

The Township's combined net assets increased 5% from a year ago - rising from \$112,610 to \$118,283.

This year was the first year for the implementation of GASB 34 with the resulting changes in the financial position as reflected on the Governmental Funds Balance Sheet, Statement of Net Assets.

The Township's Funds

Our analysis of the Township's major funds following the entity wide financial statements. The fund financial statements provide detail information about the most significant funds, not the Township as a whole. The Township Board creates funds to help manage money for specific purposes as well as to show accountability for certain activities such as special property tax millages.

The General Fund pays for most of the Township's governmental services. The amount transferred to the General Fund is supported by a detailed calculation of the current year costs of the specific capital outlay approved by the Township Board.

General Fund Budgetary Highlights:

Over the course of the year the Township Board was able to maintain the township departments within their prescribed budgets

Capital Asset and Debt Administration:

The Township has invested significantly in major and local roads within the Township. These assets are not reported in the Township's financial statements because of Michigan law which makes these roads the property of the County Road Commission (along with the responsibility to maintain them).

Economic Factors and Next Year's Budgets and Rates:

Pleasanton Township's 2004-2005 general fund budget calls for the allocated millage of 1.3813. Pleasanton Township also has a voted millage for Fire Protection services in the amount of 0.4760. Because of the impact of Proposal A, however, the Township needs to continue to watch its budget very closely. The state-wide tax reform act limits growth in taxable value by less than inflation, the mathematical result of this is that the total taxable value for the Township will grow less than by inflation, before considering new property additions.

General Over view of the Accomplishments of Pleasanton Township in the 2004-2005 Fiscal Year:

Pleasanton township has managed to maintain general buget constraints and guidlines given light that the State of Michigan has reduced the annual revenue sharing allocations.

Contacting the Township's Management:

This financial report is intended to provide our citizens, taxpayers, customers and investors with a general overview of the Township's finances and to show the Township's accountability for the money it receives. If you have questions about this report or need additional information, we welcome you to contact the treasurer at (231) 864-2584.

PLEASANTON TOWNSHIP FOOTNOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

The accounting policies of the Township conform to generally accepted accounting principles as applicable to governmental units. The following is a summary of the significant accounting policies.

A. Reporting Entity

Pleasanton Township is located in Manistee County, Michigan. The Township is governed by an elected five member board. Services are provided to approximately 850 residents and include fire protection and general community enrichment services. The criteria established for determining the various agencies and boards to be included in the Township's general purpose financial statements depends on the extent such agencies and boards are a part of, controlled by or dependent on the Township. The criterion used to determine the reporting entity, "is the ability to exercise oversight responsibility over such agencies by the governmental unit's elected officials."

B. Summary of Significant Accounting Policies

Basis of Presentation

The accounts of the government are organized and operated on the basis of funds and account groups. A fund is an independent fiscal and accounting entity with a self balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds are maintained consistent with legal and managerial requirements. Account groups are a reporting device to account for certain assets and liabilities of the governmental funds not recorded directly in those funds.

Basis of Accounting

Basis of Accounting refers to how revenue and expenditures or expenses are recognized in the account and reported in the financial statements. The basis of accounting, as required under generally accepted accounting principles, varies for each fund.

General, special revenue, debt service, capital projects and trust and agency funds should be accounted for using the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenue is recognized in the accounting period in which it becomes available and measurable. Expenditures are recognized in the accounting period in which the related fund liability is incurred, if measurable.

Enterprise funds should be accounted for using the accrual basis of accounting. Under the accrual basis of accounting, revenue is recognized in the accounting period in which it is earned and becomes measurable. Expenses are recognized in the accounting period incurred, if measurable.

The accounting policies of Pleasanton Township conform to generally accepted accounting principles and include the following fund types

1. Government Fund Types use modified accrual basis and include -

The general funds account for fiscal resources in use for general types of operations. The general fund is a budgeted fund and any fund balances are considered as resources available for use. Revenues are derived primarily from property taxes and state and federal distributions, grants and other intergovernmental revenues.

The special revenue funds account for specific governmental revenues requiring separate accounting because of legal or regulatory provisions or administrative action. These funds are employed to maintain integrity for the various sources of fund.

The capital projects funds account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds and trust funds).

2. Fiduciary fund types include -

The *Trust and Agency Fund* is unbudgeted and accounts for activities within those areas wherein the township is operating in either a trust or agency status. These funds have no equity, assets are equal to liabilities, and do not include revenues and expenditures for general operations of the township.

3. GASB 34

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities which rely, to a significant extent, on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment: and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenue.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Revenues and expenses are recognized on the accrual basis using the economic resources measurement focus. Based on Governmental Accounting Standards Board (GASB) Statement No. 20 Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities that Use Proprietary Fund Accounting, as amended, the Township has elected to apply the provisions of all relevant pronouncements of the Financial Accounting Standards Board (FASB), including those issued after November 30, 1989, that do not conflict with or contradict GASB pronouncements

C. Budgets and Budgetary Accounting

The general fund and enterprise fund types are under formal budgetary control. Budgets shown in the financial statements for these funds were prepared on a basis the same as the modified accrual basis used to reflect operations and include those amounts formally appropriated by the Township Board.

D. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reported period. Actual results could differ from those estimates.

2. Excess of Expenditures over Appropriations

The local unit shall not incur expenditures in excess of appropriations. This also requires a disclosure of all such functional areas which exceeded budget. As such, a budgeted statement is included in the supplementary data portion of these financial statements.

3. Financial Control of Funds

As authorized by Act 20, Public Act of 1943, as amended, states that the Township, by resolution may authorize its treasurer to invest surplus funds in the following manner:

- 1. Direct obligations of the United States or an agency or instrumentality of the United States.
- 2. In any account or depository which is a member of the F.D.I.C. or a savings and loan which is a member of the Federal Savings and Loan Insurance Corporation, or a credit union which is insured by the National Credit Union Administration.
- 3. Fifty percent of the funds may be invested in commercial paper rated at the time of purchase within the three highest classifications by not less than two standard rating agencies and which mature not more that 270 days following the date of purchase.
- 4. In United States Government of federal agency obligations repurchase agreements.
- 5. In bankers acceptances of the United States banks.
- 6. In mutual funds composed of investment vehicles which are legal for direct investment of local units of government in Michigan.

4. Cash and Investments

Deposits of the Township are as authorized by the Township Board. A summary of these accounts and amounts is included in the supplemental data section of this report. All funds of Pleasanton Township have been invested in those depositories or investments as authorized by Michigan Compiled Laws Section 129.91. The balance sheet account for all funds includes all cash, investments and imprest (petty cash) funds.

In accordance with GASB Statement No. 3, risk disclosures must be made to indicate the amounts of cash insured or uninsured. A general summary of these assets is as follows:

	<u>Carrying Value</u>			Bank Value	
Insured	\$	98,282	\$	91,460	
Uninsured	\$	0	\$	0	

The Township also has \$ 20,000 invested in certificates of deposit.

5. Changes in General Fixed Assets

General Fixed Assets have been acquired for general township purposes and at the time of purchase were recorded as expenditures. The assets have been capitalized in a General Fixed Asset Group of Accounts as required by generally accepted accounting principles. As a Township policy, assets valued at less than \$5000 are considered to be supplies and are not recorded as fixed assets. All depreciable assets were donated a significant time ago and as such there are no depreciable assets for this presentation.

6. Compensated Absences and Post Employment Benefits

The township does not pay for compensated absences.

7 Contingent Liabilities

There are no known contingent liabilities.

8. Risk Management

The township carries commercial insurance as a protection against risk.

9. Long Term Debt

The Township does not have any Long Term Debt.

10. Taxes receivable

Taxes receivable reflected in the general fund represent delinquent real property taxes and tax administration fees on delinquent real property taxes. Manistee County funds the delinquent tax roll by selling tax notes annually and distributing the proceeds to the governmental units. Accordingly, these delinquent taxes and related fees are recorded as revenue in the current year.

To the Pleasanton Township Board Pleasanton Township Bear Lake, MI

We have audited the combined financial statements of the Pleasanton Township for the year ended March 31, 2005. Our audits were made for the purpose of forming an opinion on the combined financial statements taken as a whole. The accompanying schedules, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the combined financials statements. Such information has been subjected to the auditing procedures applied in the audits of the combined financial statements and, in our opinion, is fairly stated in all material respects in relation to the combined financial statements taken as a whole.
